<b>WEIGHT</b>	150 g

Creamy yoghurt with apricot, artisanally produced using milk from the Langhe

<b>DESCRIPTION</b>	Artisan yoghurt made from whole cow's milk collected daily from farms just a few kilometres from the dairy and enriched with an apricot mixture
<b>APPEARANCE</b>	Yoghurt with a thick, creamy texture; the fruit mixture is visible at the bottom of the jar
<b>TASTE</b>	Sweet and milky, with a slight acidity and a pleasant apricot aroma
<b>PRODUCER</b>	KORBAN - GORRINO (CN) - PIEDMONT
<b>OUR SELECTION</b>	A range of yoghurt and kefir branded Via Lattea, produced by Korban dairy: artisanal production using local milk and respecting natural fermentation times, to offer those seeking high-quality yoghurt and kefir a healthy and trustworthy option
<b>CURIOSITY</b>	Fermentation takes place without acceleration, using selected cultures that give the yoghurt its characteristic rich, creamy texture. No thickeners are used in production, and the fruit preparations and other flavouring ingredients are exclusively of Italian origin, mainly from Piedmont
<b>SUGGESTIONS</b>	It's perfect on its own, but we suggest stirring it gently to mix the yoghurt with the fruit mixture
