| OUR SELECTION | |
| CURIOSITY | The story of Latteria Moro began in 1930 in Oderzo, when Luigi Moro, Sergio's grandfather, started to collect milk from the stables of the area to sell it to the families of the village. At the beginning of the 80's the current owner Sergio Moro, decided to rediscover the traditional local techniques of cheese maturing and affinage, used by farmers and shepherds to conserve, mature and season cheeses. The traditions rediscovered by Sergio give us the possibility to taste cheeses with flavours, smells and colors that went lost over the years |
