CURIOSITY	Sapori Mediterranei is a producer of a very typical salami from the south of Italy, called Pezzente della Montagna Materana, a Slow Food Presidium produced in Cirigliano (MT), in Basilicata region. «When in 1999 I learnt from my mother Giovannina the art of producing salami - told us Giovanni Ciliberti - my expectation was to continue to bring to your tables the flavours and tastes of the past. Nowadays, the authenticity of our salami is for us a gastronomical pride, not a commercial slogan». Meat exclusively comes from pigs bred in wild and fed with natural foods. The particular and unique taste is given by the use of natural flavourings, established by the tradition, and by the total absence of additives
SUGGESTIONS	Delicious just served with pagnotta bread; in the production area it is used also to prepare 'sugo rosso' with tomatoes to dress pasta or it is cooked with vegetables like chicory or chards
