OUR SELECTION

Meat exclusively comes from pigs bred in wild and fed with natural foods. The particular and unique taste is given by the use of natural flavourings, established by the tradition, and by the total absence of additives.

CURIOSITY

The processing method of salsiccia carried out in five phases: meats, lean as well as fat, are first ground using a big format of the bites; meat is then flavoured with salt and spices; the mixture obtained is made into sausages in natural swine entrails and then tied up; the sausages obtained are dried into dedicated places for four days
