I Contadini - Ugento (LE) - Apulia

OUR SELECTION

The most interesting aspect of I Contadini is the deep link with the land and the traditions. The vegetables are produced by the firm, with integrated techniques, in the province of Lecce in Apulia region, and naturally dried under the strong sun of Salento, according to an ancient tradition, preserving in them all the organoleptic and nourishing qualities

CURIOSITY

Cherry tomatoes are grown in April and picked by hand in July. After the harvesting they are washed, selected, cut by hand, salted and dried for 4- 5 days on the frames in the sun. Following a completely natural drying, normally 800 g of product are obtained from 10 kg of fresh tomatoes

SUGGESTIONS

Delicious with ricotta or served with a warm bruschetta; it can be also used as an appetizing ingredient for sandwiches
