OUR SELECTION	Since many time we were looking for tasty cuerded meats but without preservatives. For over a year we worked together with Paolo and finally today we are able to offer to our clients these high quality cured meats, without additives
CURIOSITY	Savory is an herb with an intense and lightly spicy flavour; for these characteristics it has to be well dosed to not influence too much the salami
SUGGESTIONS	Try it with beans, like a substitute of sausage: the savory will add more complexity to the dish
