OUR SELECTION	The history of the Mambelli Dairy begins in a house in the Bertinorese countryside. Nonna Elsa produced a special ricotta, loaded the precious product on her bicycle and sold at the market in Cesena. The dairy has now reached the third generation with Federica and Raffaella, along with her husband Gianluca. From the beginning, the dairy expresses its vocation to authenticity: exclusive use of natural ingredients, methods of processing and craftsmanship. And it is with this spirit that during the lockdown, the dairy has transformed the employees of its local "Osta" in piadine producers of the Romagna tradition, the same piadina first produced internally only for the restaurant with flour km0 is now packaged and sold to the public
CURIOSITY	It is still baked today in terracotta pans, as in the past, when the piadine were cooked on the fire of the economic kitchen; the porosity of the terracotta gives the piadina an unmistakable aroma
SUGGESTIONS	It is recommended to heat in a non-stick frying pan, a few seconds per side, and serve filled and rolled
