OUR SELECTION	A high-quality Parmigiano, guaranteed for 60% of the production through a complete supply chain: milk from proprietary farms, processing in the modern dairy renovated in 2017, and aging in the adjacent warehouses
CURIOSITY	The history of Caseificio Gennari begins in 1953 when Sergio and Maria took over a small dairy in Collecchio and started producing Parmigiano Reggiano, but only 3 wheels a day. Today, with production increased to about 100 wheels per day, we have also reached the third generation in command: the hearts of the company are the sons Paolo, master cheesemaker, and Tino, who manages the farm. The grandchildren Andrea and Laura have also joined in managing the dairy and sales points
SUGGESTIONS	Great to eat at the end of a meal on its own or accompanied with aged Balsamic Vinegar of Modena
