OUR SELECTION

With Forno Follador, we have now established a solid relationship of trust: for Easter, we have chosen a selection that meets the expectations of lovers of great classics, such as the Traditional Colomba and Gubana, but also some less traditional proposals, like the Chocolate and Orange Colomba and the Chocolate and Apricot Colomba. For all of them, there's one common denominator: careful selection of raw materials, processing of fresh sourdough starter, and respect for traditional leavening times

CURIOSITY

Antonio Follador's Colomba is made with refreshed sourdough starter and selected high-quality ingredients, such as single-origin 60% chocolate

SUGGESTIONS

Excellent when enjoyed pure with a dessert wine such as an aged Marsala or dipped into Zabaione cream. It should be stored in a cool and dry place, avoiding direct exposure to light and heat sources
