Sweet and sour but also spicy version of the more classic tuna pâtés

TASTE	The cooked tuna stands out, with the addition of a pleasant yet not invading spiciness
PRODUCER	Josè Gourmet - Perafita (Portogallo)
OUR SELECTION	Josè Gourmet is a Portuguese company, one of the smallest canning companies in the Iberian Peninsula, born in 2008 thanks to Adriano Casal Ribeiro, former pilot and company director, and Luis Mendonça, illustration teacher and artistic director of Josè Gourmet. An ambitious project of theirs, born with the aim of bringing to market a vast line of gastronomic products that tell the story of Portugal and its cuisine. We liked this truly unique line of fish preserves and pâtés, anchored in Portuguese tradition but winking at international gastronomy
CURIOSITY	Mendonça's artistic hand can be seen in the carefully crafted packaging, in which the irreverent and unconventional graphics of local illustrators explode, who have revisited the product in a caricatured way
SUGGESTIONS	An appetising base for a spicy crouton or a tasty starter; try it paired with a cow's milk stracciatella
